Laminex[®]

Inspire your space

Laminex[®] Chemical Resistant surfaces are designed to provide advanced protection against damaging chemicals in any number of harsh environments. Economical, durable, stylish and easy to maintain, the innovative laminate construction is intended for interior horizontal and vertical applications. These surfaces feature chemical resistance to acids, alkalis, corrosive salt, and other destructive or staining substances. Suitable horizontal surfaces include sinks, counters, laboratory benches and tabletops. Ideal vertical surfaces include cabinets, casework fronts, wall splash-back panels or screens.
