COLLETT MOBILE HEAVY EQUIPMENT BENCH

Safe Mobility. Stable Operation. Laboratory Performance.

Manufactured by Metalon

MOVE HEAVY LABORATORY EQUIPMENT WITHOUT LIFTING

The **Collett Mobile Heavy Equipment Bench** has been specifically engineered to support heavy laboratory equipment while enabling safe and effortless relocation. Combining **heavy-duty industrial castors** with **vibration-absorbing floor levelling feet**, equipment can be moved for cleaning, servicing or laboratory reconfiguration without the need for manual lifting.

Once in position, the adjustable levelling feet transfer the load from the castors directly to the floor, providing a stable platform for centrifuges and other vibration-sensitive laboratory equipment.

Health & Safety Advantages

✓ Eliminates heavy lifting during equipment relocation
✓ Reduces manual handling injuries and strain
✓ Improves access for cleaning and maintenance for users and contractors
✓ Simplifies laboratory fit-out changes
✓ Enhances workplace safety and efficiency

STANDARD MOBILE CENTRIFUGE BENCH

Standard Dimensions

1150mm W × 750mm D × 745mm H

The standard four-door model provides a robust support platform for centrifuges and other laboratory equipment while incorporating valuable storage below.

CUSTOM CONFIGURATIONS AVAILABLE

Tall Equipment Configuration

Designed for larger laboratory equipment including:

- Incubators
- Laboratory refrigerators
- Biomedical storage units
- Environmental chambers
- Specialist instrumentation

Custom widths, depths and heights available.

Cupboard Or Open Shelf Configuration

Ideal where quick access to consumables and accessories is required.

TECHNICAL SPECIFICATIONS

Feature	Specification
Standard Size	1150W × 750D × 745H mm
Top Material	16mm Laboratory Grade Compact Laminate
Compliance	PC2 Suitable
Frame	Heavy Duty 50mm Steel Construction
Bracing	Side & Rear Structural Bracing
Castors	Heavy Duty Industrial Castors
Levelling System	Adjustable Vibration-Absorbing Feet
Storage	Shelving or Cupboard Options
Frame Finish	Powder Coated Steel

ENGINEERED BY METALON

DESIGNED WITH INPUT FROM LABORATORY, HEALTH & SAFETY PROFESSIONALS

Developed in partnership with Rachael Collett, an experienced Technical Laboratory and Health & Safety professional, the **Collett Mobile Heavy Equipment Bench** has been specifically engineered to address the challenges of safely supporting and relocating heavy laboratory equipment. Designed and manufactured by Metalon, it combines laboratory furniture expertise with heavy-duty steel fabrication to deliver outstanding durability, vibration control, safety, and long-term performance in demanding laboratory environments.
